

White & Hot

Crisp, Clean, pure and goddess-like, that's the appeal of WHITE. There's something cool and refreshing about white clothing that makes it chic all summer long. Since it reflects light, the wearer looks cool and collected, even when the temperature soars. Small wonder that white has been a long-time favorite of residents of hot, tropical climates. You can look calm, cool, and collected even on the hottest days. White is right!!
